To Whom It May Concern,

I am writing to provide a professional reference for public speaker, Katie Dilse. U.S. Custom Harvesters Inc. has had the pleasure of working with many professional speakers, Katie has risen to be one of the most dynamic speakers we have enjoyed. The quality of speaking she exudes is among the very best. The professionalism she brings along with the personal touch she applies to every listener cannot be forgotten or surpassed.

Katie is an excellent public speaker. Her passion for changing lives and touching hearts is evident, as well as captivating. I personally have had the honor of hearing Katie speak on numerous occasions. During the most recent opportunity, she displayed an exuberant amount of energy as well as the deepest form of sincerity and personal conviction. She has the gift of taking the person in the room who could be overlooked and honoring their presence. She opens her heart and conversation to each personality, and every person under her voice acknowledges her gift. Many attendees, young and old have expressed the quality of her speaking and the genuineness she displays.

It is my pleasure to give Katie Dilse the highest recommendation as a speaker for any event. While proving herself a professional, she maintains an engaging personality. She will deliver valuable information and leave each attendee changed.

Sincerely,

Rana J. Zeller
