To Whom It May Concern:

It is our pleasure to recommend Katie Dilse as a speaker. We had a fantastic kick off to the U.S. Custom Harvesters 2017 Annual Convention with Katie Dilse as our opening speaker. She also spoke to a small group of our members at a women's luncheon. Katie gets our blood pumping, hearts racing and laughter exploding from our mouths as she shares her true experiences from the business of life.

Katie shares with the utmost possible enthusiasm stories of her accomplishments, trials and conquests of daily life on her family's North Dakota grain farm. As loud music and hand clapping get the crowd going and excited, Katie continues the momentum never standing still on the stage and off amidst the crowd sharing how to get an 18 wheeler down the road with minimum experience, and other challenging situations that can be translated as part of anyone's struggles.

Her positivity would prove to us all with the right mind set anything in life can be handled and how to focus on what lies ahead and not dwell on what is past.

We wholeheartedly recommend Katie for any event, large or small. Feel free to contact our office for any additional information!

Sincerely,

*USCHI Board of Directors*
